

Oop's
INGO MAURER & TEAM 2019

Oop's is a strip of paper pinned to the wall. The light source is hidden in the lower end. It combines the spontaneous expression of a ready-made with a very appealing curved shape and the pleasant light that falls through paper. Paper by Gmund, steel, plastic. The colourless cable supports the spontaneity of this lamp. Oop's is usually available for immediate delivery.

Light source
Socket E27, max. 60 watts, suitable for bulbs of the energy efficiency classes EEC A-G. Bulb not included.

Technical data
100 - 240 Volt, E27 max.60W
